Silver Plus is a retractable roof system, adapted to aluminium structure. With its clean and modern design, Silver Plus adds value to your outdoor areas.

The product is usable according to its User Manual in all-weather conditions and designed to be used in all four seasons. If desired the product can be made into retractable winter garden by closing the sides with different kinds of enclosures.

Palmiye presents a wide range of ceiling covers, with a selection of colours, materials, (such as PVC, fabric) and patterns which are imported from Europe and U.S, with 5 years guaranty against fading and mould.

The entire drainage system is integrated into the structure and lighting systems can be adapted to the ceiling cover which moves together with it.

The Spot Lights or Linear Lights are installed on the aluminium profiles and can be controlled by a remote control or with a remote controlled dimmer function.

Each of our products is hand crafted and in itself unique, and from ceiling cover to construction material, you can completely customize your products.

Palmiye is proud to present its own MyPalmiye App which has been designed specifically for Palmiye products and is available at Apple's App Store.

<b>Max Rail Centers</b>	400

Cosmo is an indispensable product, if there is an existing curved construction, which allows uninterrupted interior climate control throughout the seasons.

Palmiye presents a wide range of ceiling covers, with a selection of colours, material (such as PVC, fabric) and patterns which are imported from Europe and U.S, with 5 years guaranty against fading and mould.

Lighting systems can be adapted to the ceiling cover which moves together with it.

The Spot Lights or Linear Lights are being installed on the aluminium profiles and can be controlled by a remote control or with a remote controlled dimmer function.

Each of our products is hand crafted and in itself unique, and from ceiling cover to the construction material you can completely customize your products.

## PROFILE SECTION

Rail Profile  
5,5X9

A large, thin-lined ampersand graphic is positioned on the left side of the page. The text 'DETAILS' and 'OPTIONS' is centered within the right-hand loop of the ampersand. The text is in a bold, uppercase, sans-serif font. To the right of the word 'DETAILS' and below the word 'OPTIONS', there are three parallel, slanted lines that intersect the text.

### DIMMABLE LED LIGHT

Depending on whether you want strong practical lighting, or an atmospheric dimmed ambience, you can choose between the Spot Lights with Palmiye's 3-Lens LED Technology or the Linear Lights.

You can dim the lights directly from your Remote Control or Smart Phones. Investing in LED technologies is part of Palmiye's contribution to a greener environment.

# SIDE COVER OPTIONS

For environmental protection or create outdoor living areas used throughout four seasons, Pergola sides can be covered by glass systems, louvers, drop arm awnings, external vertical zip blind, external vertical blind.

# MOTOR & AUTOMATION

## REMOTE CONTROL

Internationally renowned Somfy motors from France are used to operate all of our products.

Guaranteed for 5 years and using RTS technology, the motors can be operated at the simple touch of a button.

## PALMIYE APPS

We are proud to present our own MyPalmiye App which has been designed specifically for Palmiye products and is available at Apple's App store. Now you can take full control of your Palmiye experience and choose from several options, directly from your iPhone or iPad.

These include:

- Activating the infra-red heaters.
- Adjusting the FourSeasons cover.
- Dimming the lights.
- Playing your favourite music.

# WATER DRAINAGE & SEALING

The hidden part of the drainage system which was ingeniously integrated inside both beams and pillars makes effortlessly possible the discharge of water.

## DOUBLE ANTI-AIR SYSTEM

- A This system prevents the wind entering between the ceiling cover, rails and gutter, and creates an airtight space into which the wind cannot enter.

## WATERBLOCK

- B This prevents rainwater entering the enclosed area, and leads it directly to the front gutter for perfect water drainage.

Back Seal

# STRUCTURAL DESIGN

## ELEGANT DESIGN

Palmiye pergolas' aesthetic appearance offers the best for those who desire elegance and perfection.

## PILLAR BASE

Stainless steel base hides all the floor installations inside, drains the water to the outside and gives an exclusive finish to your product.

## HIDDEN ASSEMBLY DETAILS

Plus and Compact series provide a clean surface and perfect view by concealing all connection details made with stainless steel screws and parts.

## PROFILE CAP CHOICES

Give a personal touch to your pergola by choosing from a rounded or straight ended cap.

## GEOMETRIC CROSS SECTION

With its geometric design, the specially engineered inner section gives maximum strength and wind resistance to the aluminium rail profile.

## HORIZONTAL BEAMS

The front and side beam on the same horizontal level, giving a continuous line throughout the product, ensuring a smooth relaxing overall look, which is a delight to the eye.

\* Doesn't include the compact series.

### SEPARATE GUTTER PROFILE

#### RAIN GUTTER **A**

The gutter with its height adjustment feature, provides the anti-air system, in different positions to ensure a perfect fit, according to the inclination of your product.

#### SEPARATE FRONT BEAM **B**

The separated front beam carries all the weight of the roof without putting any pressure on the gutter. Additionally it is also responsible for carrying awnings and glass systems.

#### VERTICAL BLIND **C**

Horizontal sun rays can be reduced with a vertical blind. It is a full cassette awning and the Ferrari Soltis fabric, provides shade without interrupting the view.

#### GLASS SYSTEMS **D**

Different glass systems can be installed directly onto the front beam.

# APPLICATION TYPES & SOLUTIONS

## RAIL POSITIONING

### MODIFIABILITY

Allows modifications on the main constructions by changing the main aluminium beam and pillars with steel.

### MIDDLE PILLAR REDUCTION

Provides a flexibility to remove the middle pillars by performing optional system changes.

### PILLAR POSITION CHANGE

Pillars have the ability to shift up to 50 cm according to the structural needs of the Project.

SKYLIGHT  
APPLICATION

## 5-YEAR WARRANTY

All our products have up to 5 years guarantee for the construction and motor. The electronics and remote controls are guaranteed for 2 years.
